The Bone House: Audio Book On CD (Bright Empires)

Synopsis

Kit Livingstone met his great-grandfather Cosimo in a rainy alley in London where he discovered the truth about alternate realities. Now he's on the run and on a quest trying to understand the impossible mission he inherited from Cosimo: to restore a map that charts the hidden dimensions of the multiverse. Survival depends on staying one step ahead of the savage Burley Men. The key is the Skin Map but where it leads and what it means, Kit has no idea. The pieces have been scattered throughout this universe and beyond. Mina, from her outpost in seventeenth-century Prague, is quickly gaining both the experience and the means to succeed in the quest. Yet so are those with evil intent who, from the shadows, are manipulating great minds of history for their own malign purposes. Those who know how to use the ley lines have left their own world behind to travel across time and space down avenues of Egyptian sphinxes, to an Etruscan tufa tomb, into a Bohemian coffee shop, and across a Stone Age landscape where universes collide in this, the second quest to unlock the mystery of The Bone House. The Bright Empires series from acclaimed author Stephen R. Lawhead is a unique blend of epic treasure hunt, ancient history, alternate realities, cutting-edge physics, philosophy, and mystery. The result is a page-turning, adventure like no other.

Customer Reviews

I had to listen to this audio book twice to understand the content on most of the CD's. This concept of time travel is unique and interesting. It will remain in my imaginative thought process for a long

time.

Great book, hooked from the beginning!

First book in the series was interesting and raised expectations - not so much in the rest of the series books - story line fractured into too many seemingly unrelated plots -- lost interest to finish series.
