Customer Reviews

An excellent study/review tape. I have purchased three sets of cassettes to reveiw my spanish and this was my favorite. Note however that I already speak spanish at a lower intermediate level. I lived in Colombia for over two years. I mainly bought this cassette to increase my vocabulry during time otherwise wasted in my car. It was an excellent tool for this. If you already speack Spanish and wish to improve I would give this a 5 star rating. If you are trying to learn Spanish... then you will need to judge for yourself (thus I gave a 4 star rating as it might not be as perfect for that) Good Luck!

Finally, my wife and I have found an audio series suitable for auto travel. As long as you have easy access to your "pause" control, this is a terrific format. We have thoroughly enjoyed Level II and Level III and continue to use them on the road and at home.

Phrases and vocabulary are easy to understand and practice. I like the non-plastic packaging. I'll buy more of this company's language products.

did not receive a reference guide. I need a visual to hear and see what I am listening to.
