Customer Reviews

That alone makes the book very valuable, even though it could barely be called a book, more like an article, but I actually appreciate the lack of mindset filler so prevalent in books of this nature. The proper motivation is critical but sometimes you just want a step by step system to follow, and method 1 in this book is awesome!!

This guy knows his stuff! Make Easy Money Online is a great resource that I have found quit easy to follow. It mentions pretty much the exact steps taken that got him to \$1500 a month and beyond. It's the little things that make a difference, just the small things that help you succeed. Managing money can also be a problem, Jack goes through a step-by-step system of how to take care of that too. Overall a good first step to take reading this book if you want to make easy money online.

Good over view of his three main revenue streams. SEO writing sounds very interesting and I respect his comfort with outsourcing. Additionally, I appreciated the encouragement to try new things.
