What The Night Knows

Synopsis

In the late summer of a long-ago year, a killer arrived in a small city. His name was Alton Turner Blackwood, and in the space of a few months he brutally murdered four families. His savage spree ended only when he himself was killed by the last survivor of the last family, a fourteen-year-old boy. Half a continent away and two decades later, someone is murdering families again, re-creating in detail Blackwood's crimes. Homicide detective John Calvino is certain that his own family—his wife and three children—will be targets in the fourth crime, just as his parents and sisters were victims on that distant night when he was fourteen and killed their slayer. As a detective, John is a man of reason who deals in cold facts. But an extraordinary experience convinces him that sometimes death is not a one-way journey, that sometimes the dead return. Here is a ghost story like no other you have read. In the Calvinos, Dean Koontz brings to life a family that might be your own, in a war for their survival against an adversary more malevolent than any he has yet created, with their own home the battleground. Of all his acclaimed novels, none exceeds *What the Night Knows* in power, in chilling suspense, and in sheer mesmerizing storytelling. "Dean Koontz...has the power to scare the daylights out of us." "People" Koontz seems to know us, our deepest foibles and fears." "USA Today" Koontz writes first-rate suspense, scary and stylish." "Los Angeles Times" A master at spinning dark tales...Koontz knows how to dial up the terror." "Associated Press

Customer Reviews

Whatever happened to the Dean Koontz who wrote such excellent books as *Watchers*, *Intensity*,

Dark Rivers Of The Heart, From The Corner Of His Eye, and Velocity -- just to name a few? It's sad to see when an author goes from being "can't miss" to "don't bother." For me, this has been the situation with Koontz's books over the past several years. I was hoping, however, based on the description in Vine, that What The Night Knows was going to be like Koontz's books from yesteryear -- i.e., edge-of-the-seat excitement, fully developed credible characters, realistic dialogue, and non-stop suspense. The plot is described as involving a Homicide detective who believes that his wife and children are being marked for murder in the same way his parents and sisters were brutally killed twenty years earlier by a crazed murderer out on a killing spree. A killing spree that ended when the detective, then fourteen years of age, killed the murderer of his family. Unfortunately, virtually none of what I hoped for turned out to be the case. While What The Night Knows has its moments of suspense, there are not enough of them nor are they of the caliber of suspense Koontz used to be able to create; suspense that used to make the hairs on the back of my neck stand up on end. Even more disappointing to me was Koontz's inability to create believable, fully developed characters as well as realistic dialogue. For me, this was particularly true about the child characters in What The Night Knows. These children, pre-teens, are so poorly developed and speak such unrealistic dialogue that I often had to stop reading in order to get my eyes to stop from rolling around in my head in astonishment.
