Customer Reviews

Rollan and Abeke continue their perilous and increasingly dangerous journey to gather spirit animals and their owners in an attempt to protect them from the nefarious Zerif. There are so many twists and turns in this book, it's sure to keep you hooked right up until the very end! The fate of the Greencloaks will shock you, and all we can do is pray that balance will be restored in the final book. Connor and Meilin and Takoda find themselves battling increasingly insurmountable odds. One can only wonder how long Connor can hold out against the parasite, if Kovo will continue to be an asset or a curse, and their final fate as they also wonder about their friends on the surface. One of our friends will face a devastating blow, and the end will keep you hooked. I anticipate re-reading the entire series toward the end of the summer so our minds are fresh when we read the last book. I hope they continue to make spin-offs or continuations of the stories! My only gripe is that I don't want to read Tales of the Fallen Beasts with Kovo on the cover, because I'm afraid that will be a spoiler for what happens in the last book, so it sits on my shelf staring at me. On the bright side, we'll have 2 books instead of one to read once we get the final installment come September 2016 or hopefully sooner.

Wow! This was amazing! All of the spirit animals books are! I totally did not see some of this coming such as the leader of the red cloaks real name or identity it shocked me all the way. Totally amazing I truly recommended for all of you who love the first series or any of the other books just startling and shocking. As such is the blow that one of the four main characters takes and also I love how Tasha joined the team. And it startles me at Tarik's past and his who his sister is. I love how descriptive each of the characters are and I love everything about this book I totally recommend it. You are a fan of animals or/and mythical things then I recommend it if you like Erin hunters warrior books then I recommend it for you too. If you haven't read any of the first series then I recommend to go back and read them all go ahead and read them there good, I recommend them!

Oh my gosh this book is so amazing! It pulls you in from the first word. It begins with how Zerif, the villain of the Immortal Guardians, is created, in a sense. Then the story alternates between Sadre and Erdas, the narrators of Sadre being Meilin, a warrior of Zhong, summoner of Jhi, the Great Panda, Conor, a once shepherd boy of Eura, summoner of Briggan, the Great Wolf, and Takoda, a boy monk of a monastery in Nilo, summoner of Kovo, the Great Ape, and Greencloak in training. Up on Erdas, Rollan and Abeke narrate what is going on above. Rollan was a street urchin in Amay who's life changed when he summoned Essix, the Great Falcon. Abeke was a hunter from Nilo when she summoned Uraza, the Great Leopard. The mysterious Redcloaks aided the heroes on the surface, and the end reveals a shocking discovery on the true identity of King, the leader of the Redcloaks...read to find out the truth, Spirit Animal fans! Also play the game. Its really fun. (by the way, I'm using my dad's account. My name is actually Audrey :D)

My son is in love with this book series! We received this book yesterday and he's already 3/4th of the way done reading it. Keep them coming!

It made the story more interesting I love that it leaves you at cliff hanger ^f ^<

I was hoping that Connor and Merlin would get back with Rollan and Abeke but sadly they didn't. I hate that Abeke's spirit animal is infected by the parasite and losses her connection to it. I hope they can cure Connor and get Abeke's spirit animal back in the next chapter of Spirit Animals: Fall of the Beasts, Book 4

There was a lot of action and it is my favorite by far book from the second series " Fall of the Beasts". My favorite character was Takoda because he is calm and right headed

Excellent book, very interesting that my grandson read it in two days. Why cant you put these books on the unlimited free Kindle reactor kids??? Think about it Please
