Customer Reviews

This DVD requires a 32 bit computer or an OS that can run 32 bit such as Windows 7 Professional (not Home). Although this DVD has some different things on it, I would recommend the "DVD Tutor" first. It has a newer style and works on 64 bit computers. I was lucky enough to find a used copy which is much cheaper.

I couldn't get this software to initialize on either the Win 7 or MAC OS computers in my home. I tried several times on each computer and got multiple errors.

This DVD won't open on my computer, so I haven't been able to use it at all.
