Immersionplus Italian [With Listening Guide] (Italian Edition)

Synopsis

A dynamic, conversational foreign language immersion series! The ImmersionPlus series has been created especially for the intermediate to advanced foreign language students who want to improve their foreign language comprehension. The audio, recorded by a native speaker, is first heard at a normal spoken pace, then slower, followed by a repeat of the first to rapidly improve comprehension.

Customer Reviews

I listened to these cds after working my way through another Basic-Intermediate Italian book & tapes. They really helped to improve my listening skills. The dialogues are repeated three times: fast-slow-fast, and there is a booklet which contains the text both in Italian & English. The dialogues are interesting, often funny, and have a wide range of vocabulary and colloquial expressions. Very useful.

In short, it is a very good practice for the advanced student. The idea of repeating the same dialog, first at (almost) normal conversation speed, then slower and then again like the first time, is good. You will listen to several different voices, male and female, young and older, etc. The speed of the "normal" conversation is, in some of the dialogs, still slower than the speed that most Italians will talk in real life, but that doesn't detract from the usefulness of the dialogs. Of course you shouldn't read the dialog prior to listening to it, even more than once. Only then look for the unknown or new

words - if any - in the dictionary. Used like that it can help with comprehension a lot. I wish they would come up with another - even more advanced set.

ImmersionPlus Italian is helping me improve my fluency in Italian. I've enjoyed the dialogs, and have found it easier to "listen and repeat". The price was great too!
