Customer Reviews

I was hopeful that these two books would provide some useful information on writing and publishing Kindle e-books. Yes, there were a few "nuggets" (which barely justified the two stars), but the books

were so poorly written and so badly edited that I could hardly finish them. Mistakes in the introduction, and Chapter 1 starts out with "I chose kindle publishing for you (your welcome)..." Yikes!! I'm actually stunned that Kindle would publish something so full of errors, but maybe that's why it's called "self-publishing".
