## Customer Reviews

Wow! This book has so many typographical errors. Don't publishing companies proofread books? Sure the book isn't all that expensive but that's no excuse for such poor quality. Isn't Collins a major

publisher? Due to the errors anyone who refers to this phrasebook will be misunderstood by those they try to communicate with rendering parts of this book useless. The typos are both in the Japanese, including the romanji and English. Wait until the errors are corrected before purchasing this phrasebook.
